

SIDDHESH THORAT

Full Stack Python Developer | AI/RAG Specialist | Django | React | LLM Integration

siddhesh.s.thorat14@gmail.com | +91 8830875465 | [LinkedIn](#) | [GitHub](#) | Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Full Stack Python Developer with **9+ months** of internship experience and a production-deployed AI SaaS — **NeuroFlow AI** — built on Django REST Framework, React, Celery, Redis, ChromaDB, and multi-provider LLMs (Gemini, OpenAI, Groq). Architected a complete RAG pipeline and async document intelligence system deployed across Render, Supabase, Upstash, and Railway. Proven ability to own full-stack features end-to-end, resolve complex production failures, and ship scalable AI-integrated backend systems independently.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, Bash
Backend	Django, Django REST Framework, REST APIs, JWT, Celery, Redis, FastAPI
Frontend	React, JSX, React Router, TanStack Query, Vite, Tailwind CSS, HTML5, CSS3
AI / RAG	RAG Pipelines, Sentence Transformers, ChromaDB, Embeddings, Prompt Engineering
LLM Providers	Google Gemini, OpenAI API, Groq, Hugging Face, Multi-provider LLM Abstraction
Databases	PostgreSQL, MySQL, SQLite, Django ORM, ChromaDB (Vector DB), Supabase
Cloud & DevOps	Render, Railway, Supabase, Upstash, Docker, WSL2, Git, GitHub
Practices	Service-Layer Architecture, Background Processing, API Integration, Agile

PROFESSIONAL EXPERIENCE

Python Developer Intern <i>Testyantra Software Solutions Pvt. Ltd., Pune, Maharashtra</i>	<i>Jan 2025 – Oct 2025</i>
- Architected 10+ production RESTful APIs with DRF and modular MVC design, reducing API response time by 25% and enabling seamless frontend-backend data exchange. - Engineered 5+ backend modules with reusable Django Models, Views, and serializers, cutting code redundancy by 30% and accelerating feature delivery across Agile sprints. - Optimized complex SQL queries via Django ORM across MySQL and PostgreSQL, improving query performance across 3+ production application modules.	

PROJECTS

NeuroFlow AI — AI-Powered Developer Workspace Live GitHub	<i>2025–2026</i>
<i>Django · DRF · React · Celery · Redis · ChromaDB · Sentence Transformers · Gemini · OpenAI · Groq · Supabase · Render · Railway</i> - Shipped a production full-stack AI SaaS with JWT auth, persistent chat sessions, document intelligence, notes, and global search — deployed across a 4-service cloud architecture on Render, Railway, Supabase, and Upstash. - Engineered a complete RAG pipeline: document upload → text extraction (PDF/DOCX/XLSX/PPTX) → chunking → SentenceTransformer embeddings → ChromaDB vector storage → semantic retrieval → LLM answer generation. - Built multi-provider LLM abstraction (Gemini, OpenAI, Groq) with automatic fallback and async document processing via Celery + Redis offloaded to a dedicated Railway worker service. - Diagnosed and resolved 18 production issues: CORS misconfigurations, Redis TLS failures, Vite Linux casing bugs, Supabase Storage migration, PostgreSQL auth failures, and Celery worker isolation.	
BuyNGo – Full-Stack E-Commerce Platform Live GitHub	<i>Feb–Apr 2026</i>
<i>Python · Django · PostgreSQL · REST API · HTML5 · CSS3 · JavaScript · PythonAnywhere</i> - Shipped production e-commerce app with auth, session cart, paginated catalog, checkout, and order tracking; completed 5+ deployment cycles with iterative backend and UI improvements. - Implemented CSRF protection, secure session management, and database-driven product catalog with full Git version control discipline.	
Job Application Tracker Live GitHub	<i>Jan–Feb 2026</i>
<i>Python · Django · Tailwind CSS · Bootstrap · JavaScript · Render</i> Built Django dashboard managing 500+ job records with interview scheduling, resume uploads, status pipelines, and role-based access control; deployed on Render with responsive Tailwind UI.	

EDUCATION

Bachelor of Engineering – Computer Engineering Bharat College of Engineering, Thane Mumbai University, Maharashtra	<i>Oct 2022 – Jun 2025</i>
Diploma in Information Technology Govt. Polytechnic Awasari BK, Pune, Maharashtra	<i>Jun 2019 – Jun 2022</i>

ACHIEVEMENTS & CERTIFICATIONS

- TCS iON NQT – IT (2026)**: Scored **1981.80 / 3000 (79.06%)** – validated Python, problem-solving, and analytical reasoning at a national competitive level.
- Full Stack Python Developer Internship Certificate** – Python, Django, REST APIs | Testyantra (2025) | [View](#)
- Elected **College Student Council Member for 2.5 years**; led **10+ campus-wide events** demonstrating leadership and cross-functional team coordination.
